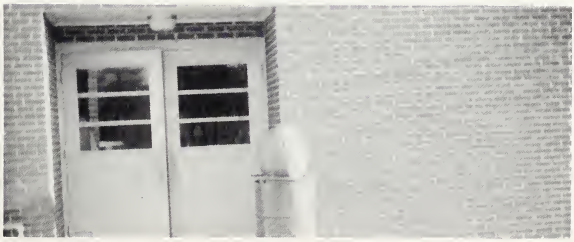
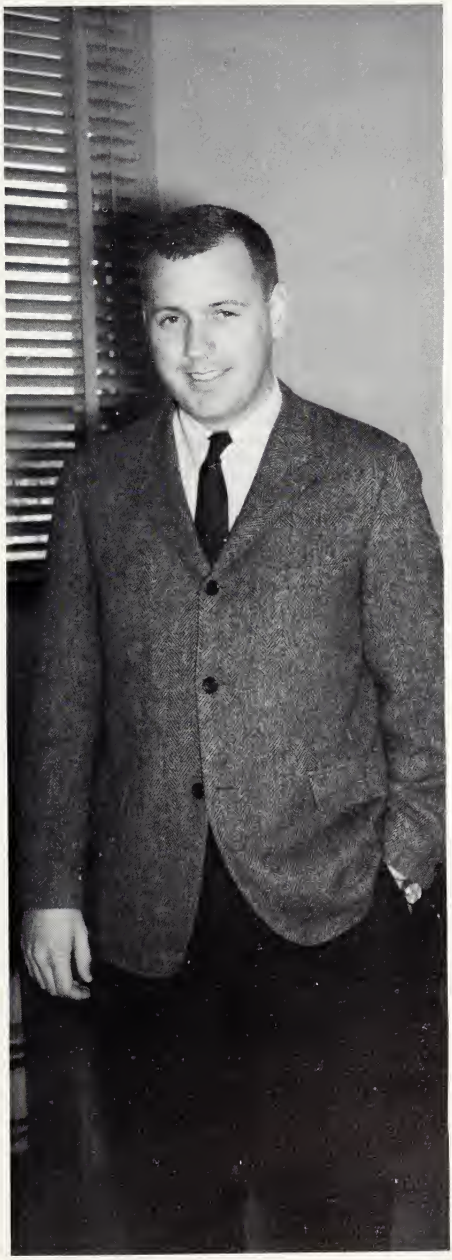
The Bridge From

Wayne Community College

Yesterday To Tomorrow



Dedication



We the members of the annual staff, wish to express our thanks and appreciation to two of the most deserving and devoted men at Wayne Community College. These men have done much to help our school over the bridge to become a community college. They have spent many long hard hours in order that we may grow. These two men greet each student with a smile and strive to help each one to meet his goal. This year the annual staff wishes to dedicate the 1968 TEKNIK to our President, Mr. Clyde A. Erwin and to our Dean of Students, Mr. Jefferson Faucette. Our thanks to you both, Mr. Erwin and Mr. Faucette.

Ida Williams

Powell Bland

We wish to express our deepest appreciation to these six people who helped to make it possible for us to become a community college.

Evening Program

No wonder they are smiling, look at the teacher.

One of the courses offered in our evening program is steel measuring.

The Learning Lab in action.

Barber Shop quartet.

Then you connect the Thing-a-ma-jig to the dowhaly.

And Snoopy shot down the Red Barron.

Z-Z-Z-Z

And now childern . . .

Now wasn't that a good film?

Hey! There are no words on this.

What do you want now boys?

Organized study?

Operation break-neck.

You're going to have to buckle down now.

Cipher this one.

Man, I dread this class.

Classes can't start until the Bell rings.

I bet this one will throw them.

We ought to get hazardous duty pay for this.

Engineering
Drafting and Design

What is this twelve foot hole doing in the wall.

8:00 classes are fun, fun, fun, fun.

If there are no further questions we will call it a day.

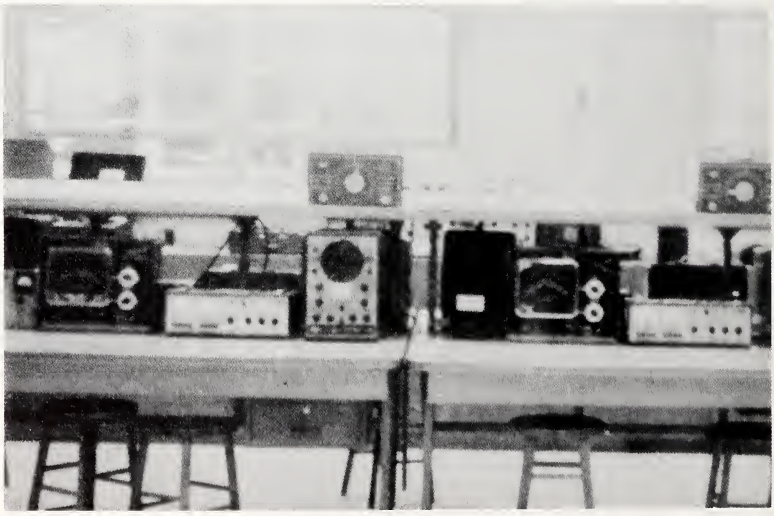
I think someone is cutting today.

How shocking.

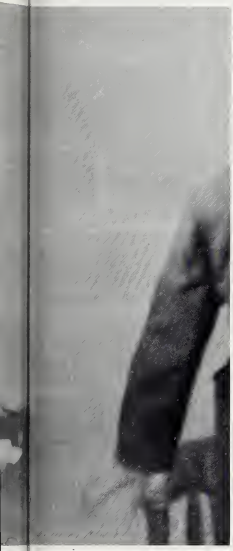
"oops"! Wrong department.

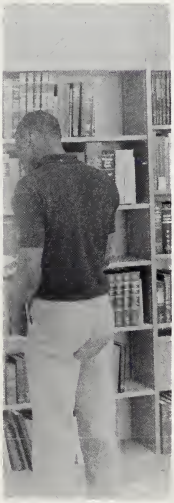
Electronics

We wired her chair with 6,000 volts



An empty lab is so inspiring.





Radio Free Europe.

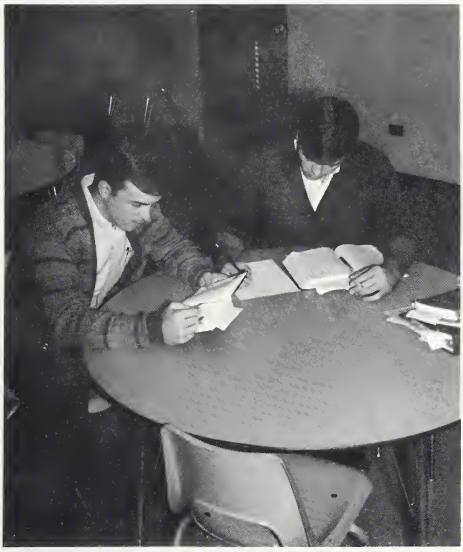
Business

And she says she's going steady.

Ready–Set–Mush

Oh Mrs. Hoag (Blush!)

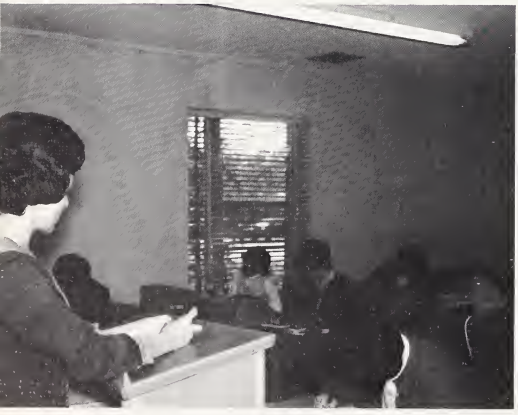
I wonder why the fellow taking this picture told us to look studious.



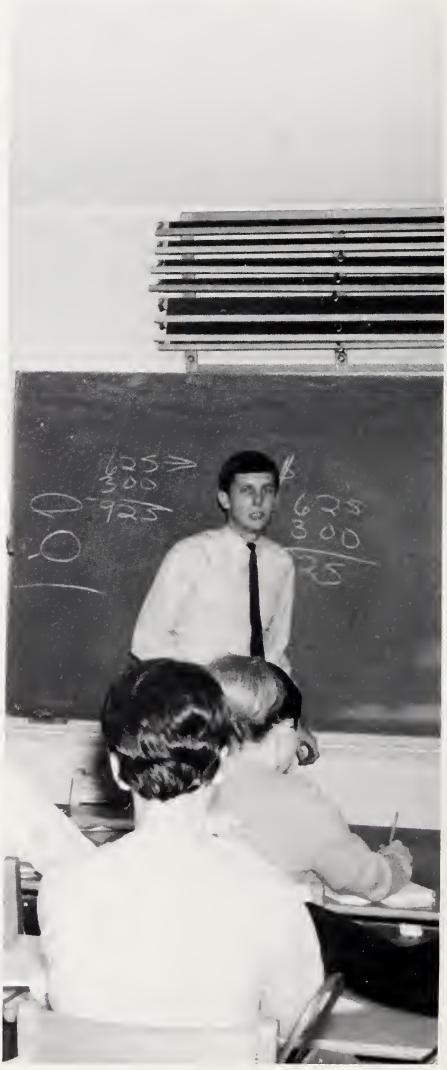
But I couldn't have skipped a page.

Who said that?

They love to type their obituary.



And then the three bears . . .



Gee Mrs. Waters you look as white as a ghost.

Gee teacher you are bright today.

Health Occupations

Mr. Casey, do we have to?

Who stole my LSD?

Should I?

Break time.

Our fearless leader.

Aha another unsuspecting victim.

I could have sworn you were dead.

I need a half a cup of coffee to face this class.

And then the traveling salesman said . . .

Ankleflabem connected to femurhalter.

Mom will love these.

If you had used Crest this would never have happened.

Dear Son,

You ask my reaction to long hair or beards on young people. Some men have worn long hair and beards -- George Washington and Abraham Lincoln. If to you long hair or a beard is a symbol of independence, if you believe in your heart that the principles of this country -- our heritage -- is worthy of this display of pride that all men shall remain free, that free men at all times will not inflict their personal limitations of achievement on others, to demand your own rights as well as the rights of others and be willing to fight for this right, you have my blessings.

You ask that I not judge you merely as a teenager; to judge you of your own personal habits, abilities, and goals. This is a fair request. And I promise I will not judge any person only as a teenager if you will constantly remind yourself that some of my generation judges people by their race, their belief, or the color of their skin and that this is no more right than saying all teenagers are drunken dope-addicts or glue sniffers. If you will judge every human being on his own individual potential, I will do the same.

You ask me if God is dead. This is a question each individual must within himself, answer. Did a warm summer day with all its brightness, all its sound, all its exhilerating brightness, just happen? God is love! Remember that God is a guide and not a storm-trooper. Realize that many of the past and present generation, because of a well-intention but unjustifiable misconception, have attempted to legislate morality. This

created part of the basis for your generations need to rebel against our society. With this knowledge, perhaps your children will never ask "Is God dead?" I sometimes think much mankind is attempting to work Him to death.

You ask my opinion of draft-card burners. I would answer this way. All past wars have been dirty, unfair, immoral, bloody, and second-guess. However, history has shown most of them necessary. If you doubt that our free-enterprise in the United States is worth protecting, if you doubt the principles upon which this country was founded --- that we remain free to choose our religion, our individual endeavors, our method of government --- if you doubt that each free individual in this great country should reap awards commensurate only with his won effort, then it's doubtful you belong here. If you doubt that people who govern us should be selected by their desire to allow us to strive for any goal we feel capable of attaining, then it's doubtful you should participate in their selection. If you are not grateful to a country that gave your father the opportunity to work for his family to give you the things you've had and you do not feel pride enough to fight for your right to continue in this manner, then I assume the blame for your failure to recognize the true value of our birthrights. And I would remind you that your mother will love you no matter what you do because she is a woman. I love you, too, Son; but I also love our country and the principles for which we stand. And if you decide to burn your draft-card, then burn your birth certificate at the same time. From that moment on, I have no son.

PRINCIPLES OF FINANCE

A B DICK

The bridges of yesterday are long since past.
This world of ours is moving so fast.

A good education is a must to meet the worlds growing demands,
thus instilling many vital skills into our hands.

The challenges of tomorrow are very great.
The skills we learn will tell our fate.
